OPPORTUNITIES

PROJECT

SOLSTICE - JPI Climate Joint Call (Enabling Societal Transformation in the Face of Climate Change)

Recognising the role of the Social Sciences and Humanities (SSH) in this transformation, JPI Climate has recently launched a joint transnational call for research projects aimed at enabling societal transformations in the face of climate change (SOLSTICE). Seven projects were selected for funding in the fields of (1) Social justice and participation and (2) Sense making, cultural meaning and risk perceptions. The projects explore motivations of stakeholders that can be applied in different contexts. Contact: Elisabeth Worliczek
